Marijuana Company of America Enters Into Supply Contract With West Coast Collective

BONSALL, CA -- (Marketwired) -- 03/10/16 -- **MARIJUANA COMPANY OF AMERICA** ("**MCOA**" or the "Company") (OTC PINK: MCOA), an innovative cannabis marketing and distribution company, is pleased to announce that it has entered into a supply agreement with West Coast Collective ("WCC") on behalf of the Company's managed services clients.

Under the terms of the agreement, WCC will provide a wide range of products, including flower (bud), concentrates and finished products to MCOA'S managed services client, Kush Clinic, in Palm Desert, California. WCC is a Pre-ICO, Prop. D compliant medical marijuana dispensary licensed in the greater Los Angeles area.

MCOA's Strategic Advisory Board Member, Eddie Manolos, is one of the most accomplished pioneers in the Medical Marijuana industry. He is also on the management team of WCC. Regarding the new contract between the two companies, Mr. Manolos said, "there is a great deal of synergy between WCC and MCOA. The high quality products that we are currently developing will be a great fit for the brands and distribution model that MCOA is launching. Both companies have aspirations of being industry leaders and can accomplish this quicker by joining forces."

This is the first of many contracts MCOA will establish on behalf of its managed services clients in California and other states and countries. MCOA will continue to leverage the local, regional, national and international relationships that the management team has developed over nearly a decade of active participation in the legal cannabis industry. This contract will enable MCOA to meet the anticipated demand that will be generated upon full launch of the various MCOA programs and product lines, and ensure that it can provide its clients and patient members with a consistent supply of top quality products at competitive prices.

"Establishing this relationship with WCC and their veteran management team enables MCOA to focus on product distribution knowing that a professional, experienced team is producing and providing high quality, tested, MCOA branded products to our clients and patient members," said Mr. Steinberg, MCOA President.

On behalf of the Board of Directors,

"Donald Steinberg"

Donald Steinberg
